

## **CAAS-GVS to hold Remount Forum**

**The Commission on Accreditation of Ambulance Services, Ground Vehicle Standard Division (CAAS-GVS) will be holding an open forum for organizations involved in the remounting of ambulances. The intent of this meeting is to identify and establish a dialogue with FSAMs and third party Remounters of ambulances in an effort to collect information that may be used in an identified project to create standards for the ambulance remount industry.**

**Any organization with interest in this topic is invited to attend, including ambulance builders, remounters, regulators, customers and component/material vendors.**

**This is an information gathering session only. Input from this meeting will be for the use of the GVS Committee once a remount standard project has been defined and scheduled. No decisions will be made or standards created at this meeting.**

**The meeting will be held on June 7, 2017, from 12:00-5:00, at the MEDIC Mecklenburg EMS Agency headquarters in Charlotte, NC.**

**Pre-registration for the meeting will be required. Detailed information and a registration link will be established on the [www.groundvehiclestandard.org](http://www.groundvehiclestandard.org) website by April 1.**

**For more information:**
