March 19, 2015
The Ohio State University, The Fawcett Center
2400 Olentangy River Rd. | Columbus, OH

Join us for the inaugural year of The EMS Leadership Development Conference. This conference is designed to present the most cutting-edge clinical topics in pre-hospital care presented by national experts. All fire and EMS chiefs, EMS instructors, EMS providers, EMS officers and EMS coordinators should attend this unique educational conference and learn straight from the experts and researchers in these key content areas.

**KEYNOTE SPEAKERS:**

**Francis X. Guyette, MD** – University of Pittsburgh
**Michael Sayre, MD** – University of Washington
**Henry E. Wang, MD** – University of Alabama at Birmingham

There are limited seats available for this conference. For more information email mzambito@brinkleygroup.com.

**To register go to emsleaders.com.**

**TOPICS:**

- Recent Discoveries in Current Essential Management of Cardiac Arrest
- EMS Protocols for Cardiac Care: Current and Upcoming Essential Changes
- Pre-hospital use of Ketamine for Agitation and Sedation
- Hemostatic Resuscitation and Pre-Hospital TXA
- Airway Management: Alternate Airways and Measurement of Tissue Oxygenation
- Endotracheal Intubation (with and Without Rapid Sequence Induction): Where are we?
